

Item No.: LM8588

Composite Insulating Gloves, Class 0

In order to protect yourself, it is a general recommendation to wear on your rubber gloves leather protective gloves, too. The disadvantage is a reduced flexibility. In order to fulfill both requirements (additional protection and high flexibility), we offer "2in1 Insulating Gloves" - they have a dielectric and mechanical protection. The unique formulation of the rubber compound makes Flex & Grip gloves (Size 11) extremely flexible. Each pair of composite gloves is supplied with one pair of cotton fingerless under gloves to improve comfort; it's recommended to replace regularly the cotton gloves for hygienic reasons.

Advantages:

- Integrated mechanical protection - no need of leather protector
- Class 0, 1000 Volt
- Bicolor Red/Black: it makes the visual inspection easier.
- Standard EN 60903 2003 IEC 60903 2014
- Standard PPE Category III (Reg EU 2016 425)
